

SREE NIVAS J

Senior Software Engineer | React.js | Laravel | Full Stack Developer

sreenivasj14@gmail.com | 6385578231 | Madurai, India | linkedin.com/in/sree-nivas-j-b35175219 | github.com/sreenivas14

PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience specializing in building scalable web applications and SaaS platforms using React.js and Laravel. Proven expertise in full-stack development, RESTful API integrations, RPA automation, and AI-assisted development using Claude Code AI. Recognized for impactful contributions to compliance automation projects serving 300+ users. Adept at Agile/Scrum practices, code reviews, and cross-functional collaboration.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), Next.js, HTML5, CSS3, Bootstrap, jQuery, Redux

Backend: Laravel, PHP, Node.js, RESTful APIs, SSE (Server-Sent Events), Java

Database: MySQL, MongoDB, query optimization

DevOps & Tools: Jenkins, SonarQube, Git, GitHub, CI/CD, Webpack, Claude Code AI

Practices: Agile/Scrum, Code Review, Unit Testing, Responsive Design, RPA Integration

WORK EXPERIENCE

Senior Software Engineer | Aparajitha Software Services Pvt Ltd Jun 2022 – Present | Madurai

- Architected end-to-end full-stack solutions using React.js, Laravel, PHP, MySQL, SonarQube, and Jenkins across multiple compliance SaaS projects.
- Built and maintained 20+ reusable React components with hooks-based state management, reducing unnecessary re-renders by 30%.
- Implemented CI/CD pipeline using Jenkins, automating build, test, and deployment — cutting release cycle time by 40%.
- Integrated SonarQube for continuous code quality inspection, resolving code smells, bugs, and security vulnerabilities across 3 projects.
- Created custom RESTful APIs for RPA bot integration, automating manual PF and ESI workflows for 300+ employees.
- Led development of the Aparajitha Helpdesk (Mar 2026 – Present) — a PF & ESI client support application, using Claude Code AI to accelerate development and automate support workflows.
- Collaborated with UX/UI designers, QA engineers, and PMs in Agile/Scrum sprints, conducting code reviews and maintaining code quality.
- Received the Appreciation Award (March 2023) for outstanding contributions to the Simpliance Remit project, delivered within tight deadlines.

React & Frontend Developer | Complyindia Tech Services Pvt Ltd Mar 2021 – Jun 2022 | Bangalore

- Developed 15+ modular reusable React components, reducing UI development time by 25%.
- Implemented React Hooks state management (useState, useEffect, useCallback), reducing re-renders by 35% and improving responsiveness.
- Applied code-splitting and virtual DOM optimisation, improving portal load speed by 30%.
- Ensured cross-browser, cross-device compatibility using CSS media queries across Chrome, Firefox, Safari, and Edge.
- Optimised RESTful API calls and data fetching with backend developers, improving user experience and response times.

EDUCATION

MCA – Master of Computer Application

Madurai Kamaraj University, Madurai

CGPA: 7.0 | Jul 2023 – Jun 2025

BCA – Bachelor of Computer Application

Thiagarajar College, Madurai

CGPA: 9.28 | Jun 2018 – May 2021

PROJECTS

Aparajitha Helpdesk – PF & ESI Client Support Application

Mar 2026 – Present

Tech Stack: React.js, Laravel, MySQL, RESTful APIs, Claude Code AI, JavaScript

- Developed a dedicated helpdesk platform for PF and ESI compliance support, enabling clients to raise, track, and resolve queries efficiently.
- Leveraged Claude Code AI throughout the development lifecycle to accelerate feature implementation, generate boilerplate, debug complex logic, and improve overall code quality.
- Integrated automated ticket routing, status tracking, and email notification workflows to reduce manual support overhead.
- Built role-based access control for admin and support agent dashboards with real-time query management and audit trails.

Simpliance Remit – PCS Automation System

Oct 2022 – Feb 2026

Tech Stack: React.js, Laravel, MySQL, JavaScript, HTML, CSS, RPA

- Developed an end-to-end SaaS automation system for accurate PF and ESI calculation, reducing manual compliance errors for 300+ internal employees.
- Implemented Server-Sent Events (SSE) for real-time progress updates during long-running payroll processing tasks, improving transparency and user experience.
- Integrated Excel-based data processing, queue management, and automated email notifications with attachments for full transparency.
- Built custom RPA API integrations for seamless bot-driven data processing and report generation.

Library Management System

Jul 2024 – Aug 2024

Tech Stack: React.js, Laravel, MySQL, RESTful APIs

- Built a role-based Library Management System with admin and user dashboards for managing books, categories, issue requests, approvals, return tracking, and real-time search/filter functionality.

Timer-Based Quiz Application

Oct 2022 – Jan 2023

Tech Stack: React.js, Laravel, MySQL, JavaScript

- Individually designed and deployed a cross-platform timer-based quiz app with scoring, result tracking, admin panel, and secure social login via Google, Facebook, and GitHub.

Weather Application

Mar 2023 – Apr 2023

Tech Stack: React.js, OpenWeatherMap API, HTML, CSS, JavaScript

- Built a real-time cross-platform weather app with geolocation detection, city search, and live weather data integration via OpenWeatherMap APIs.
